Important Message ! Please read before sending your radio for repair! Updated 01/01/25

We repair radios in the order that they are received. Our average turnover time to complete repairs is averaging 2-3 weeks when parts are in stock. Turnover can exceed several months if we need to obtain parts from other sources. When parts are available, we can repair. When proprietary parts are no longer available, we cannot repair.

We prefer that you send the radio with NO accessories unless you feel the accessory may be part of the problem.
